

Enabling Technology

Visit our website for more information:

Enabling Technology

Core Responsibilities:

- Assess the impact of technology on supporting people to improve their quality of life, personal growth, and personal satisfaction
- Create a sustainable model for Enabling Technology in coordination with Person-Centered Planning and Employment First systems across TN
- Implement a model for Enabling Technology support, including statewide training, education, and technology implementation
- Demonstrate the efficacy of Enabling Technology in providing improved quality of life, new opportunities for self-determination, and more cost-effective outcome-based care

Enabling Technology collaborates with HCBS Service Providers to provide:

- Technical Assistance, Training, Implementation, Consultation, Review, and Evaluation on Enabling Technology solutions, services, and documentation
- Best Practices to help facilitate and support the person-centered use of Enabling Technology solutions and services
- Quality Assurance reviews of Enabling Technology services
- Serves as liaison between DIDD Regional Offices, MCOs, HCBS Service Providers, Coordinators, Service Recipients, and Technology Vendors
