

WHAT'S INSIDE...

- **Smart phone** with WayFinder, Endeavor, and Visual Impact apps installed; includes active T-Mobile data service; charging cable included in box
- **Protective phone case and wall charger**
- **MAPs project summary** and device management information
- **Support contacts page**
(see listing for your regional Tech Champion)

QUICK START GUIDE

HOW TO GET STARTED:

- **Plug in your phone** (keep it plugged in until fully charged)
- **Power it on**
- **Locate and explore your apps**
- **Launch Visual Impact** to view preinstalled setup tasks

NOTE FOR iPhone USERS: It is recommended that you create an Apple account on your iPhone to take full advantage of your iPhone's features. There is a setup task in Visual Impact with step-by-step instructions for setting up your account.

NEED MORE INFO?

- ▶ **Visit your custom resource page at ablelinktech.com/maps**
 - Online training (tutorials & step-by-step instructions)
 - MAPs program information and updates
- ▶ **Contact your TN DDA Tech Champion**
(listed on the support contacts page in this box)

*NOTE: The WayFinder Ecosystem includes a Travel Manager website that can be used to view individual trip progress through real-time GPS location reporting. Travel Manager can also be used to view details of previously taken trips, including periodic location data. This system has been enabled by default. To opt out of this system, navigate to **Settings > Cloud Settings** and turn off **Enable Location Tracking** in the AbleLink WayFinder app.*
