

ABLELINK SMART LIVING SERVICE

Smart Living Service subscribers receive full access to the AbleLink Endeavor and AbleLink Visual Impact apps. Ongoing training and active implementation support are provided by AbleLink staff for initial assessment and consultation, setup, and customization.

The AbleLink Smart Living Service helps people with cognitive disabilities to live more independently.

**“Dignity and Respect
- Priceless”**

- Smart Living Service solutions are evidence-based and cognitively accessible
- Endeavor provides time-based reminders, to-do lists, and audio notes
- Visual Impact presents clear step-by-step instructions or checklist-based tasks through multiple layers of customized media
- The Endeavor and Visual Impact apps are designed to work in tandem: events created in Endeavor can be programmed to automatically launch a related task in Visual Impact at specified times
- The Smart Living Service apps can be deployed on iPhones, iPads, or Android phones and tablets
- Medicaid waiver funding is available in some states - contact AbleLink for details
